An ISO 9001-2015 Company

## TEST REPORT: CONTAINORAIN DESICCANT

**Test Requested** : As requested by client, SVHC screening is performed according to:  
- Two hundred and thirty-three (235) substances in the Candidate List of Substances of Very High Concern (SVHC) for authorization published by European Chemicals Agency (ECHA) on and before Jun 14, 2023 regarding Regulation (EC) No 1907/2006 concerning the REACH.

**Test Results** : Please refer to next page(s).

**Summary** :

According to the specified scope and analytical techniques, concentrations of tested SVHC are $\leq 0,1\%$ (w/w) in the submitted sample.
---

PASS
------

The lists are under evaluation by ECHA and may subject to change in the future.

2. Test results in this report are based on the tested sample.

This report refers to testing result of composite material group by equal weight proportion. The material in each composite test group may come from more than one article.

3. If a SVHC is found over 0,1% (w/w), client is suggested to identify the component which contains the SVHC and the exact concentration of the SVHC by requesting further quantitative analysis from the laboratory.

4. If the sample is a substance or mixture, and it directly exports to EU, client has the obligation to comply with the supply chain communication obligation under Article 31 of Regulation (EC) No. 1907/2006 and the conditions of Authorization of substance of very high concern included in the Annex XIV of the Regulation (EC) No. 1907/2006.

5. Companies supplying articles containing substances of very high concern (SVHCs) on the Candidate List in a concentration above 0,1% weight by weight (w/w) on the EU market must comply with the Waste Framework Directive 2008/98/EC requirement and submit SCIP notifications on these articles to ECHA, as from 5 January 2021.

### Gulmohar Pack-Tech India Pvt. Ltd.

Sr. No. 80/11, Plot No. 1,2,3, Gulmohar Tech-Park, Bhosari Alandi Road, Dighi Magzine Chowk, Behind Pragati Hotel, Pune 412 105

**Test Result:**

No.	Substance Name	CAS No. / EC No.	RL (%)	Concentration (%)
-	All tested SVHC	-	-	ND

**Notes :**

1. RL = Reporting Limit. All RL are based on homogenous material  
ND = Not detected (lower than RL), ND is denoted on the SVHC substance.
2. \* The test result is based on the calculation of selected element(s) / marker(s) and to the worst-case scenario.  
The client is advised to review the chemical formulation to ascertain above metal substances present in the article.  
RL = 0.005% is evaluated for element (i.e. cobalt, arsenic, lead, chromium (VI), aluminum, zirconium, boron, strontium, zinc, antimony, titanium, barium and cadmium respectively), except molybdenum RL=0.0005%, boronRL=0.0025% (only for Lead bis(tetrafluoroborate)).
3. The table above only shows detected SVHC, and SVHC that below RL are not reported. Please refer to Appendix for the full list of tested SVHC.
4. Absorption capacity; 200% of its weight
